EXPELLED FROM FRANCE.

ABOUT FORTY ANARCHISTS ON THE WAY TO ENGLAND.

Scotland Yard Will Shadow Them Until They Settle Down-It England Decides to Expel Them They Will Go to Chicago. Loxpox, March 30,- The Scotland Yard authorities received word from Paris this after-neon that the forty Anarchists expelled from France were nearly all making for England. The despatches gave the names of the susperts, with their descriptions, and told what

trains they had taken. Chief Anderson of the Criminal Investigation Perartment consulted with Secretary Matthews as to the best method of dealing with this lovasion of dangerous characters. Upon returning to Scotland Yard he conferred the assistants and arranged to have all the parts at which the Anarchist travellers by to land watched by detectives, who will shadow the unwelcome immigrants from the time they set foot upon English soil until they reach London and take up permanent quarters. Dever and Folkestone have already been covered, and officers have started for Weymouth, Newbaven, Southampton, Har-

wich, and other ports. The customs authorities in London have been ordered to cooperate with the police by giving due notice of the arrival of the refugees from Prance. The Government has determined upon a system of registration for suspicious fereign residents of London, so that the police can keep close watch upon such people. It is the intention to arrest every person known to belong to the Anarchist follow ing at the very first explosion or other outrage in London. No doubt is entertained that some such outrage will be committed, though t is strange that the enemies of the existing peler should by this means imperil their only

order should by this means imperif their only refuge in Europe except Switzerland.

Even Switzerland is debating the question of restricting the crivileges she has always heretofere granted in the matter of domicilo to foreign political criminals of every class. There is a strong feeling among the English Conservatives, which is also shared by a number of Liberals, in favor of excluding the Anarchists from this country, though to do so would break up a long-standing tradition of shorestin.

Great precautions are being exercised in the guarding of all public buildings against any attempt at wrecking. Home Secretary Natthews recently conferred with the law officers of the Crown as to the propriety of prosecuting certain inflammatory weekly papers, chiefly foreign organs, printed in London and circulated mainly on the Continent. It is understood that steps will be taken to begin such logal proceedings. den and circulates and the continent. It is understood that steps will be taken to begin such legal proceedings.

The London polce say that the Anarchists do not regard. New York as a safe place of residence for them howaldays. They are not likely to take up their quarters in America unless the British Government decides to rejuse them a refuge in London. If driven out of England they will probably go to Chicago.

Paus, March 30.—The Eclair publishes interviews with Anarchists whose names are withheid. They said that the explosions on the Rue Clichy and the Boulevard St. Germain were part of the Anarchists' plan for avenging the wrongs they suffered from the law and its administrators. The police are known to mailtent the Anarchists in prison, and they, too, would soon receive a lesson.

Foreigners living in the St. Germain quarter have sent a delegation to the District Mayor, saking whether he can guarantee their safety.

have sent a delegation to the District Mayor, asking whether he can guarantee their safety. This official assured them that the most energetic measures are being taken, and that foreigners residing in Paris had nothing to fear. Some foreigners, however, do not quite see how M. Marmettan's assurances of complete security can be correct, because none of the authors of the present or previous dynamite outrages has been arrested, and there is nothing to guarantee them against being in a house which reckless Anarchists may desire to blow up.

house which reckless Anarchists may desire to blow up.

Some Anarchists are said to be making a traffic of the explosives in their possession, and persons whom they can trust can readily buy a bomb. This opens a tempting opportunity for persons inclined to revenge, and there is no doubt that some of the outrages stributed to Anarchists are really acts of private vengeance for real or imaginary injuries. Much sympathy is felt for M. Benoit, the barrister of the Court of Appeal, who has been ordered out of his apartments by his landlord, owing to fear of a repetition of Anarchist outrages at that place.

When the Anarchist, Ravachol, was arrested to-day, he made a desperate attempt to
resist the police. He was seated in a wine
shop, and had a bottle of wine before him.
Leaping to his feet, as he saw the police, he
tried to draw a revolver. At the same time he
shouted, "tive l'anarchie!"

The detectives leaped upon the desperado in
an instant. One of them seized the arm that

continued his frantic struggles, showing almost superhuman strength. The police, finding it impossible otherwise to subdue him,
pinioned his arms and carried him to the
police station.

John Bull Now Expects to Have Everything His Own Way. London, March 30 .- The news of the ap-

DEEMING'S DEFENCE IS INSANITY. He to New Accused of Killing a Man to

MELBOURNE, March 30.-The lawyer who has undertaken the defence of Deeming, the perpetrator of the Rainhill murders, says that he has conclusive evidence that the prisoner is insane. Deeming was mentally deranged, he says, when he lived in Sydney, and several persons who knew him there will be produced at the trial to testify that he was often wild and ncoherent in his conversation, and was re-

at the trial to testify that he was often wild and incoherent in his conversation, and was regarded as irresponsible. His former landlady in Sydney, Mrs. Taft. Deeming's counsel says, is ready to testify that he complained to her of being haunted by ghosts, who roused him in the night by knocking on the bed and opening and shutting his trunks.

Twice, Mrs. Taft says, Deeming ran down stairs in his night clothes shouting that someshody was trying to murder him. He had his room changed, but continued to complain of ghosts, and Mrs. Taft give him notice to leave. Other witnesses will be brought forward, it is said, to prove that Deeming changed his place of business in Sydney, because, as he said, there, was a conspiracy to murder him in his office.

Deeming arrived at Adelaide this morning and was seen by a reporter. He passed his time during the trip in playing draughts. On deck and in the cabin he was watened constantly by marines and detectives.

He has grown thinner and more nervous under the strain. An Adelaide reporter says that his features are sharper and his eyes more ferret-like than has been represented. He has a cruel mouth, with thin lips, which twitch almost constantly. Deeming complained to the reporter that no written statement of the Rainhill discoveries had been surplied to him. He said to one of the detectives shortly before his arrival in Adelaide:

"Well, if I have to swing, I will swing like a man and not like a coward.

London, March 30.—A despatch from Melbourne shows that F. B. Deeming, the Rainhill monster, probably committed a murder in South Africa. A man named Keays went with Deeming t. the Cape of Good Hope from Australia in 1888. Deeming subsequently wrote to friends of Kenys in Sydney that Keays had died in the Transvani gold fields, but it is now believed that Deeming murdered him.

She said the three sons were respectful to their mother and had never abused her. Mrs. Moss had said she meant to give her property to her sons, as her daughters had received annuities under their father's will, and she had given each of them \$6.000 to prevent a contest of the will.

A daughter of the previous witness and a housekeeper for Mrs. Moss testified that the sons had treated their mother properly.

Macon. Ga., March 30.-The resignation of F. P. Alexander as President of the Central Hailroad and Banking Company of Georgia was insisted on at a meeting of the Georgia Central directors. Fitchburg's Mayor Guilty of a \$15 Fraud. Boston, March 30. - Mayor Graves of Fitch obtaining from the county of Worcester \$15, and he is prohibited from practising as an attorney and counsellor at law for one year.

Mr. Graves was elected Mayor of Fitchburg last December. From the finding of Justice Sherman, who heard the charges, it appears that recently as an auditor in a case Graves presented to the court a bill for \$00, which Justice Dewey cut down to \$45. Mr. Graves declined to accept this sum. When Judge Thompson came to hold court in Fitchburg Mr. Graves again presented a bill for \$60. As nothing was said about Judge Dewey's previous, action the bill for the full amount was paid. Judge Sherman says that although the amount is insignificant he thinks it a matter of great importance that a member of the bar should connive to obtain money to which he was not entitled. obtaining from the county of Worgester \$15

THE AMATEUR BOXING PROBLEM.

"Father Bill" Curtis on the Warpath, but Elimination the Only Remedy,

THE SUN'S plan of solving the vexatious amateur boxing problem, namely, to eliminate boxing from the list of sports over which the Amateur Athletic Union claims jurisdiction. was favorably received on all sides yesterday, and two members of the Central Body of the A. A. U., one from the Metropolitan Associa-tion and one from the Atlantic Association, were frank enough to declare it the only remedy for an evil which has become unmanageable. The New England Association is in favor of such an elimination, as is the Turners' delegate on the Central Body's Board of Managers, and the necessary two-thirds vote can doubtless be secured if the matter is

The only thing that can clog the passage of the desired reform is the fact that the annual boxing championships of the A. A. U. have thus far been the salvation of the hody from a monetary standpoint. Morally, elimination would be a good thing, financially it would be rulnous. That is the argument of the objectors. When John Stell, the New York Turn Verein's delegate on the Metropolitan Association's Board of Managers, was asked his opinion, he replied: "It would be a wise sten. I seconded Mr. Mathewson's motion at the last annual meeting to instruct our delegates to resemmend elimination to the Central Body. But I understand the boxing championship meeting is the only thing that keeps the A. U. alive, and I hardly think they will pass the measure."

It would cortainly be denlorable if the athlotic authorflies were compelled to reject the plan for such reasons. But it is not necessary. The last boxing championships of the Metropolitan Association and the Amateur Athletic Distriction of the Amateur Athletic Distriction and the Amateur Athletic Distriction were not the howling successes looked for. A little money was used in each case, to but this was simply because spectators were drawn to the meetings in the expectation of drawn to the meetings in the expectation of the distriction of competing for medias. The goneral public now knows that the "amateur of to-day is out for the dust, and that any announcement that he will appear at a meeting where only medias are offered is to be looked upon with suspicion. It is only the "stoorage" ighters who innker after a chamber of the suspicion of the second of the

Had Mr. Curtis started in a year ago his campaign would no doubt, have crushed the avaricious "amateur." But it is much to be feared that it is too late now, and that climination is the only effective remedy.

The "Palace of Earth's Repose" is where the Empress of China holds her court and rules over the imperial harem, whose only glimpse of the outside world is what they can see in the imperial flower-garden. The present young emperor, in addition to his seven lawful concubines, has already no less than one hundred and thirty others in his harem.—H. O'Shea's article, in the Illustrated American. Such is the life of the most highly favored of Chinese women—prisoners within the palace walls they execut an existence in real slavary. American women know no slavery but that which depends on themselves. Semetimes they are overworked, "run-down," weak and alling—then is the time to turn to the right medicine.
